

Local ex-service organisation contact card

This contact card outlines who from the resident's local ex-service organisation (ESO) can be contacted when they need support. The form is to be completed by the aged care home, advocate or ESO, and for the aged care home to retain so the resident has all the necessary contact information on hand. If the resident is not already linked with a local ESO, please suggest one suitable to the resident's service or community connection.
