## Sleep Disorder(s) Medical Impairment Assessment

Ve	eteran	UIN									
Fo	sert conditions: or this assessment, each condition needs nat when assessing a condition, you will r ngle condition is present, and that the v	need to assess the ir	npairment as	thoug	gh <b>only that</b>						
1.	Please describe the <b>impact</b> these condit	tion(s) currently cau	se the vetera	an.							
	Condition:										
	Condition:										
	Condition:										
2.	2. Please select the most accurate description of alertness during the veteran's usual waking										
	hours currently, due to each condition i										
De	escription	Condition:	Conditio	n:	Condition:						
N	ormal.										
Re	educed.										
Se	everely reduced.										
3.	3. Please provide the <b>Epworth Sleepiness Scale</b> score (post treatment), if known										
4.	4. On the following page, please rate how each condition, in isolation, affects each of the following activities of daily living (ADLs) when present, using the following scale. The examples below are not exhaustive and should be used as a reference point to identify similar activities.										
	None	No impact									
	Minor	ability to perf	orm th	ne activity							
	Significant limitation with ability to perform the activity										
Major Unable to perform independently
