

Veteran

--

UIN

--

Insert conditions:

For this assessment, each condition needs to be assessed in **isolation** from all others. This means that when assessing a condition, you will need to assess the impairment **as though only that single condition is present**, and that the veteran is otherwise healthy and normal.

1. Does the veteran experience **ischaemic pain** on **climbing stairs** or **gradients**? ☐ Yes ☐ No

2. Does the veteran experience **ischaemic pain** when **walking on level ground**? ☐ Yes ☐ No

3. If yes, please indicate the distance the veteran can walk **before** developing ischaemic pain.

.....

4. Does the veteran have **ischaemic pain** at **rest**? ☐ Yes ☐ No

5. Are there any other comments you would like to make regarding the impact of the veteran's peripheral vascular disease?

.....
