**FEE SCHEDULE**

**OF**

**DENTAL SERVICES**

**FOR**

**DENTISTS**

**AND**

**DENTAL SPECIALISTS**

**Effective 1 July 2025**

Based on *The Australian Schedule of Dental Services and Glossary*, 12th Edition

## **IMPORTANT INFORMATION**

### **Dental Services by Dental Therapists, Dental Hygienists and Oral Health Therapists**

Dental therapists, dental hygienists and oral health therapists can provide dental services to members of the veteran community if they are:

- registered with the Dental Board of Australia and comply with approved scope of practice registration standards;
- covered by either their employer's indemnity insurance or maintain their own insurance as mandated by the Dental Board of Australia; and
- qualified and competent to provide the service.

Claims for these services are to be submitted by the dentist or dental specialist on their behalf at the current DVA dental fee.

### **Process for Schedule A – time and quantity restrictions**

If there is a clinically assessed need to provide dental services *above the time and/or quantity limits* as listed in the fee schedule, dentists and dental specialists will only be required to seek prior financial authorisation for items marked with an asterisk (\*).

### **Lost or broken dentures**

For the replacement of dentures that are lost or broken beyond repair, a statutory declaration from the patient must be provided and stored for audit purposes.

### **Changes to holders of Repatriation Health Card – For Specific Conditions (White Card)**

- For treatment provided under the *Veterans' Entitlements Act 1986* (VEA) and the *Military Rehabilitation and Compensation Act 2004* (MRCA)

Where a service is **related to the White Card holders accepted condition(s)** dental providers are not required to contact DVA for prior financial authorisation of the treatment unless otherwise specified in this fee schedule.

Providers can contact DVA (see telephone numbers listed below) if they require treatment status for White Card holders.

### **Compliance**

DVA is placing a greater emphasis on the existing compliance model for the provision of all health services. DVA will maintain its commitment to working with service providers to maximise voluntary compliance. Therefore treatment must be based on assessed clinical need. It is important dental providers continue to document the clinical reasons for treatment provision to DVA entitled persons.

DVA has compliance monitoring systems which monitor the servicing and claiming patterns of health care providers. This information assists DVA to establish internal benchmarks, the current utilisation and projected future delivery of services.
